PRODUCT OVERVIEW	

WE CONNECT PEOPLE AND TECHNOLOGY

We believe in the power of simplicity. Our solutions are developed to make your dictation workflow user-friendly and improve your day-to-day working life by streamlining the communication between the author and the typist. With speech-to-content solutions from Philips, the needs of all users in a dictation environment are met. Our outstanding reputation for quality and reliability has made us number one in the professional dictation market. Philips is the only full solution provider for all speech-to-content needs, such as software, hardware, and services. Practical technology, sophisticated yet simple, allows you to enhance your working environment and simply work smarter.

#1

From the no. 1
in professional dictation

ANALOG VERSUS DIGITAL
By changing over to a digital dictation workflow, companies can achieve efficiency increases of up to 25 %. Digital dictation shortens organizational processes thanks to automatic forwarding of the voice file and makes it easier to edit dictations.

STREAMLINE YOUR WORKFLOW

SpeechExec software solutions from Philips let you decide for yourself how you want to work. Use our latest technologies to your advantage and work easily and intuitively. Take the pressure off your team by speeding up your document creation processes.

PRODUCT HIGHLIGHTS

EFFICIENT WORKFLOW MANAGEMENT
The SpeechExec software organizes the workflow of dictation files and resulting documents between author and transcriptionist, and allows you to monitor the status of your work.

PRIORITY SETTING
With the included priority-setting option, urgent recordings can be prioritized. This guarantees that important dictation files will be identified at a glance and get processed and delivered first.

WEB UPDATES AND LICENSING
The automatic software update option and the state-of-the-art Web-based licensing keep the SpeechExec workflow software up-to-date at all times without the hassle of having to check for a new version, download, and install manually.

PERFECT COMPANION
Philips SpeechExec dictation software is the perfect companion for the Pocket Memo digital dictation recorder. Control all recording features intuitively with your thumb.

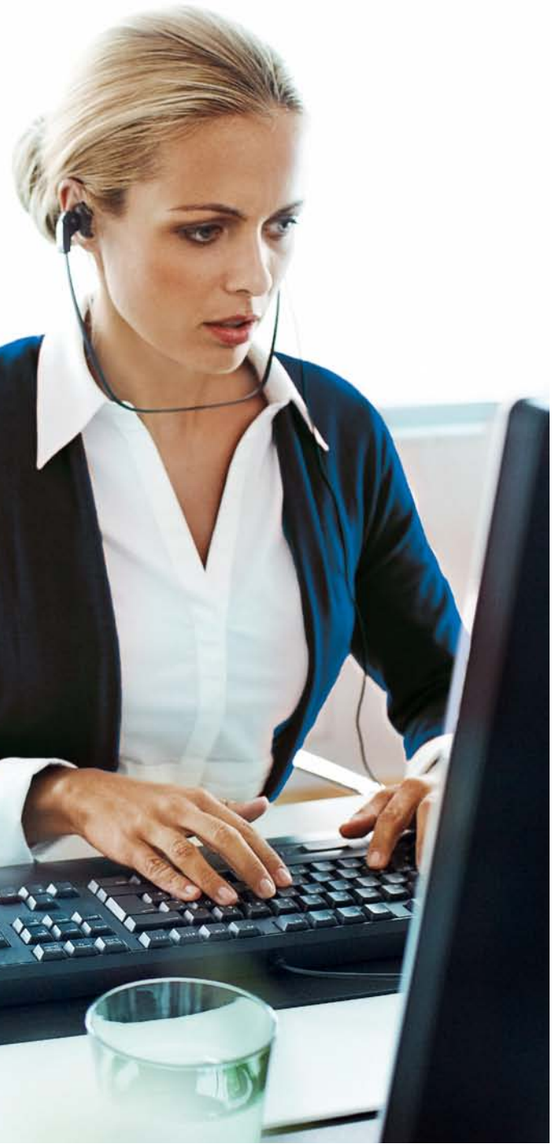
EASY WORK TRACKING
SpeechExec provides clear information about the current status of your dictation jobs. It lets you track your work and delivers real-time information, even if transcription is still pending or is already in progress.

AUTOMATIC DOWNLOAD
When plugged in, the dictation device automatically uploads your audio files directly onto the computer and into the SpeechExec dictation workflow.

BACK TO THE PREDEFINED TARGETS.
SPEECHEXEC TRANSFERS THE DICTATION FILES
TEXT DOCUMENTS
SOUND FILES
SPEECHEXEC
YOUR DICTATION WORKFLOW MANAGER
QUALITY MANAGEMENT AND ARCHIVING
TRANSCRIPTIONIST OR SPEECH RECOGNITION
TO THE RIGHT DESTINATION, SUPPORTS THE TRANSCRIPTION PROCESS, ARCHIVES AND ORGANIZES THE DOCUMENTS, AND SENDS THEM

SpeechExec transfers the dictation files to the right destination, supports the transcription process, archives and organizes the documents, and sends them back to the predefined targets.

INNOVATIVE VOICE PROCESSING
In many companies, rapid changes are occurring in the area of mobility. Studies have shown that a third of working hours now occur outside of the workplace. We have designed our dictation products and solutions in line with this trend. Enjoy your freedom, even when dictating.



DIGITAL TRANSCRIPTION

SpeechExec provides you with a transcription management platform that unites workflow automation and transcription features in one seamless solution. Creating a smooth and future-proof working environment in all documentation-intensive businesses has never been easier.

PRODUCT HIGHLIGHTS

EFFICIENT WORKFLOW MANAGEMENT
The SpeechExec software organizes the workflow of dictation files and resulting documents between author and transcriptionist, and allows you to monitor the status of your work.

KEYBOARD SHORTCUTS
Philips SpeechExec Transcribe incorporates useful keyboard shortcuts. These keystroke combinations make the control of the workflow software easy, quick, and convenient.

WEB UPDATES AND LICENSING
The automatic software update option and the state-of-the-art Web-based licensing keep the SpeechExec Pro workflow software up-to-date at all times – without the hassle of having to check for a new version, download it, and install it manually.

PRIORITY SETTING
With the included priority-setting option, urgent recordings can be prioritized. This guarantees that important dictation files will be identified at a glance and get processed and delivered first.

SEAMLESS INTEGRATION
Philips SpeechExec 7.0 Transcribe can be seamlessly and easily integrated into existing Philips digital dictation solutions such as the transcription set.

SIMPLY THOUGHT THROUGH
For Philips product developers, appealing to the intuitive senses of the user is always of great importance. The Pocket Memo 9380 dictation device has a wonderful feel and can be operated with one hand thanks to a four-position slide switch.

GET MORE DONE IN LESS TIME

Grown fond of your tape-based recorder but want to increase efficiency? This is where the Pocket Memo 9380 comes into play. With the professional slide switch you can hold on to your working habits and enhance your dictation workflow.

PRODUCT HIGHLIGHTS

AUTOMATIC DOWNLOAD VIA USB
When plugged in, the Pocket Memo dictation recorder automatically downloads your audio files directly onto the computer.

HIGH-QUALITY MICROPHONE
The high-quality microphone delivers increased recording sensitivity and excellent sound quality.

PRIORITY SETTING
With the included priority-setting option, urgent recordings get processed first.

SPEECHEXEC WORKFLOW SOFTWARE
SpeechExec sends your recordings to your assistant for transcription and allows you to monitor the status of your work.

VOICE-ACTIVATION FUNCTION
Voice-activated recording is a convenient feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

LIGHTWEIGHT METAL BODY
The ergonomically shaped lightweight metal body is ideal for convenient working over longer periods of time.

EXCHANGEABLE MEMORY CARD
Virtually unlimited recording capacity thanks to an exchangeable memory card.

PROFESSIONAL EDITING FUNCTIONS
Easy and fast file editing (insert, overwrite, append) via convenient slide switch.

DIRECT CHARGING VIA USB
Help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.

HIGH RECORDING QUALITY IN DSS
The DSS format was developed for use in digital voice recorders, achieving a high compression ratio with little loss of quality. The DSS format also allows you to store additional information in the file header, which facilitates the organization and the transcription of dictation files.

PRODUCT HIGHLIGHTS

AUTOMATIC DOWNLOAD VIA USB
When plugged in, the Pocket Memo dictation recorder automatically downloads your audio files directly onto the computer.

HIGH-QUALITY MICROPHONE
The high-quality microphone delivers increased recording sensitivity and excellent sound quality.

PRIORITY SETTING
With the included priority-setting option, urgent recordings get processed first.

SPEECHEXEC WORKFLOW SOFTWARE
SpeechExec sends your recordings to your assistant for transcription and allows you to monitor the status of your work.

DSS AND MP3 RECORDING
The DSS format was developed for use in digital voice recorders, allowing a high compression ratio with little loss of quality. The DSS format also allows you to store additional information in the file header, which facilitates the organization and the transcription of dictation files. The MP3 format is the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of music on digital audio players.

LIGHTWEIGHT METAL BODY
The ergonomically shaped lightweight metal body is ideal for convenient working over longer periods of time.

EXCHANGEABLE MEMORY CARD
Virtually unlimited recording capacity thanks to an exchangeable memory card.

PROFESSIONAL EDITING FUNCTIONS
Easy and fast file editing (insert, overwrite, append) via convenient push-button operation.

Help protect the environment by simply recharging the batteries of your device using USB instead of buying new batteries.

VOICE-ACTIVATION FUNCTION
Voice-activated recording is a convenient feature for hands-free recording. When enabled, recording will start automatically when you start speaking. Recording stops automatically after you stop speaking and restarts automatically when you start speaking again.

FORM FOLLOWS FUNCTION
Philips Design is one of the largest design organizations in the world. Thanks to its product designs and innovations, Philips is ranked highly at International Forum Design Hannover.

MAKE EVERY MEETING A SUCCESS

Our meeting recorders combine outstanding recording quality with easy-to-use technology. The included meeting microphones offer a 360-degree sound pickup radius for an unprecedented recording experience.

LFH0955

LFH0898

PRODUCT HIGHLIGHTS

SPEECHEXEC WORKFLOW SOFTWARE
The SpeechExec software organizes the workflow of dictation files and resulting documents between author and transcriptionist and allows you to monitor the status of your work.

OUT-OF-THE-BOX SOLUTION
The Pocket Memo meeting recorder delivers excellent sound quality combined with easy-to-use technology right out of the box.

EXCHANGEABLE MEMORY CARD
Virtually unlimited recording capacity thanks to an exchangeable memory card.

EXTENDABLE SOLUTION
Easily extend the recording range of your Pocket Memo meeting recorder by simply connecting up to six meeting microphones.

DSS, PCM, AND MP3 RECORDING
The DSS format was developed for use in digital voice recorders, permitting a high compression ratio with little loss of quality while enabling you to store additional information in the file header. The PCM format allows stereo recording in CD-like audio quality and the MP3 format is the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of music on digital audio players.

INNOVATIVE MEETING MICROPHONES
The innovative boundary layer design of the included meeting microphones uses the sound pressure of the table to provide excellent sound and recording quality with a 360-degree sound pickup radius.

AUTOMATIC DOWNLOAD VIA USB
When plugged in, the Pocket Memo dictation recorder automatically downloads your audio files directly onto the computer.

360-DEGREE SOUND PICKUP
Sound pickup from a 360-degree radius for a perfect recording experience.

BUILT-IN WIRE STORAGE
The innovative meeting microphones offer built-in wire storage and length adaption for a clean and tidy conference table.

ELEGANT METAL CARRYING CASE
The elegant metal carrying case guarantees the highest levels of mobility and safe transportation.

PRODUCT HIGHLIGHTS

PORTABLE AND EASY SOLUTION
Light, powerful, and easy-to-use solution for recording your meetings.

360-DEGREE SOUND PICKUP
The revolutionary boundary layer microphone is, as opposed to other prevalent devices, nondirectional. The design allows sound pickup from a 360-degree radius, so that no important details are lost.

EASY FILE ORGANIZATION
The VoiceTracer digital recorder supports up to 99 recordings in each of four available folders to organize your files in a fast and easy way.

RAPIDLY TRANSFER RECORDINGS
Thanks to the fast data transfer of a high-speed 2.0 USB connection, transferring recordings to your PC is up to 40 times faster compared with the original USB standard.

CLEARVOICE
Recording with good audio quality at lectures or presentations can be a challenge. Especially if you do not sit in the front row, the voice of the speaker may be too quiet to record in acceptable quality. The ClearVoice feature adjusts quiet passages dynamically, thus improving the intelligibility of quieter voices.

ALL-IN-ONE CARRY CASE
The all-in-one carrying case not only stores your recorder neatly, but also keeps meeting microphones well organized and well protected.

USB-POWERED RECORDING
To record over longer periods, the Voice Tracer can be powered through USB. Simply connect your Voice Tracer to a USB port and record lectures or conversations without draining the battery.

BUILT-IN WIRE STORAGE
The innovative meeting microphones offer built-in wire storage and length adaption for a clean and tidy conference table.

HIGH-QUALITY STEREO RECORDING
Recordings can be taken in stereo in the popular MP3 or the high-quality PCM formats. The PCM format offers outstanding CD-like audio recording quality and makes listening to your audio files a pleasure.

ADJUSTABLE MICROPHONE
The signal-to-noise (S/N) ratio of the high-sensitivity microphone is far better than those of standard microphones. Recording sensitivity is increased (picks up more voice signal) without compromising sound quality.

ENHANCE YOUR SOLUTION

The big picture is only as good as the small details that make it up. Make the most out of your solution with our premium accessories and make something great even better.

PHILIPS USB DOCK LFH9120

Dock your Pocket Memo for fast and easy transfer of your dictation files to your PC with the compact USB dock.

PHILIPS PLUG-IN MICROPHONE LFH9171

The unidirectional plug-in microphone turns your voice recorder into an interviewing microphone.

PHILIPS TELEPHONE PICKUP MICROPHONE LFH9162

Easily record your telephone conversations. Just plug the microphone into your voice recorder and put the earpiece into your ear.

CLIP-ON MICROPHONE LFH9173

The clip-on microphone is an omnidirectional microphone for recording situations where discreet and hands-free operation is required.

PHILIPS MEETING MICROPHONE LFH9172

The meeting microphone delivers brilliant sound quality, accompanied by outstanding ease of use. Revolutionary technology in a straightforward form. Easily extend the recording range of your Pocket Memo meeting recorder by simply connecting up to six meeting microphones.

SEVEN TIMES FASTER THAN WRITING
Thoughts are formed in words, and the spoken word is known to be fast. Ten times faster than typing yourself and seven times faster than making notes by hand. When you dictate, you save time, leaving you with more time for the important things.

PHILIPS TRANSCRIPTION SET LFH7177

The SpeechExec transcription set is a digital transcription system specifically designed to make transcription easy and intuitive.

PHILIPS STEREO HEADPHONES LFH0334

A lightweight under-the-chin style stereo headset designed to deliver excellent sound quality, with soft ear cushions for wearing comfort, and a hanging bracket that attaches the headset to a monitor.

PHILIPS HANDS-FREE HEADSET LFH0331

The hands-free headset is ideal for using on the move with its tie clip that always keeps the microphone in the perfect position.

PHILIPS RECHARGEABLE BATTERIES AAA NIMH LFH9154

Benefit from long-lasting performance for your digital recorder: allows for recharging up to 1,000 times.
